# MANUFACTURING

MORRIS COUNTY, NJ\*

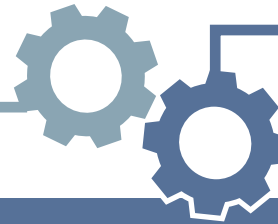

Manufacturing, both traditional and advanced, is vital to Morris County's economy. It accounts for nearly 11% of the county's GRP. Today, innovation, leading-edge technology, and top talent drive advanced manufacturing processes serving multiple sectors. Morris County's diverse manufacturing base includes concentrations in pharmaceuticals, metals, plastics, production, technology, and scientific instrumentation. We are an exceptional location for manufacturing based on our infrastructure and supply chain.
